

designed for scientists

# Liquid Handling | Mechanical pipettes from IKA

## QUALITY

- › Robust and durable
- › High chemical resistance
- › Designed and developed in Germany
- › Fully automated calibration by robots

## CONVENIENCE

- › Tool-less disassembly for simple daily maintenance
- › Fully autoclavable and UV resistant
- › Universal tip compatibility

## COMFORT

- › Ergonomic features
- › Low plunger forces
- › Comfortable grip

## ACCURACY AND PRECISION

- › Variety of pipette sizes available
- › Reproducibility
- › Volume locking feature
- › Quality, low retention tips
